

Things are really heating up with the PCT-100 Focused Convection Preheater

Focused heat for high thermal demand applications

This new pre-heater targets heat for improved speed and efficiency for high thermal demand applications, including lead-free. Used for SMT and through-hole manual processes, the PCT-100 uses convection air heating to heat a PCB first, for better soldering, improved process control and increased productivity.

The PCT-100 Focused Convection Preheater Tool adds heat volume, without turning up the temperature, to perform assembly tasks at the appropriate peak temperature without distorting the board.

Ideal for thick boards and smaller boards, such as cell phone and PDAs, the preheater focuses and delivers hot air where you need it. When finished, the fan continues without heat to cool down the board.

The system is easy-to-use. Simply plug it in, turn it on, adjust the heat and it's ready for work.

Accessories add to ease-of-use

Besides placing boards directly on the preheater, the

PCT-100 can be used with or without a board holder. You have the option of choosing an integrated or free-standing board holder.

An Arm Rest is also available to steady your hand and keep your arm from being fatigued. The board holders and arm rest are available as complete kits, with the PCT-100, or they can be purchased separately.

Rework small boards directly on the PCT-100

PCT-100 Pre-heater Convection Tool

Key Features & Benefits

- Accelerates and enhances rework processes including lead-free, SMT and plated through-hole
- Temperature ramps up quickly, maximizing productivity
- User-defined temperature adjustment up to 300 C
- Controlled cool-down eliminates thermal shock to PCB And components
- Thermocouple feedback temperature control regulates output temperature
- System safety feature automatically shuts off heating when fan is stopped
- ESD safe

Pre-heater and Accessories

| | |
|------------|--------------------------------------|
| PCT-100-11 | Focused Convection Preheater 115 VAC |
| PCT-100-21 | Focused Convection Preheater 230 VAC |
| PCT-AR | Adjustable Angle Arm Rest |
| BH-100 | Free-Standing (FS) Board Holder |
| BH-010 | Integrated (Int.) Board Holder Kit |

System Packages

| | |
|------------|--|
| PCT-101-11 | Focused Convection Preheater (115 VAC) with Arm Rest |
| PCT-101-21 | Focused Convection Preheater (230 VAC) with Arm Rest |
| PCT-102-11 | Focused Convection Preheater (115 VAC) with Arm Rest and FS Board Holder |
| PCT-102-21 | Focused Convection Preheater (230 VAC) with Arm Rest and FS Board Holder |
| PCT-103-11 | Focused Convection Preheater (115 VAC) with Arm Rest and Int. Board Holder |
| PCT-103-21 | Focused Convection Preheater (230 VAC) with Arm Rest and Int. Board Holder |

Spare Parts

| | |
|------------|-------------------------|
| PCT-1HE-11 | Heater Assembly 110 VAC |
| PCT-1HE-21 | Heater Assembly 220 VAC |
| PCT-ARPAD | Arm Rest Pad |

Use OKi or Metcal soldering tools with the PCT-100.

BH-100 Free-Standing Board Holder

PCT-100 Pre-heater Convection Tool with Int. Board Holder

PCT-AR Arm Rest

Precision tweezers and the HCT-900 Hand Held Convection Tool are ideal for use with the pre-heater.

BH-100 Board Holder Specifications

| | |
|-------------------|--------------|
| Maximum PCB size: | 304.8mm wide |
| Minimum PCB size: | 63.5mm wide |

PCT-100 Pre-heater Specifications

| | |
|----------------------------------|--|
| Input Voltage | |
| PCT-100-11 | 115 VAC |
| PCT-100-21 | 230 VAC |
| Heater rating | 450 W |
| Pollution Degree Category | II |
| Storage Temperature | -10°C—60°C |
| Environmental Temperature | 0°C—40°C |
| Air Flow | 289 l/min |
| Control Temperature (only shown) | <300°C |
| Surface Resistivity ESD | 10 ⁹ Ω - 10 ¹¹ Ω |
| Dimensions | 205mm (L) x 155mm (W) x 65mm (H) |
| Weight | 1.6 kg |
| Certificate/Approvals | cTUVus, CE |
